## PROFESSIONAL SUMMARY

Final-year B.Tech CSE (AI & ML) student at JIS University with a CGPA of 9.31. Strong foundation in Java, Data Structures & Algorithms, Object-Oriented Programming, DBMS, and software development. Hands-on experience building AI-powered applications, full-stack projects, and machine learning solutions through academic projects and national hackathons. Passionate about solving real-world problems, writing clean and efficient code, and continuously learning new technologies to develop impactful software products.

## EDUCATION

**Bachelor of Technology in Computer Science & Engineering (AI & ML)** | JIS University | 2023 - 2027

CGPA: 9.31

**Higher Secondary Examination** | WBCHSE | 2011 - 2021

Marks Obtained: 374 / 500 (74.8%)

**Secondary Examination** | WBBSE | 2021 - 2023

Marks Obtained: 641 / 700 (91.5%)

## TECHNICAL SKILLS

**Programming Languages:** Java, C, Python, HTML5, CSS3, SQL

**Core Computer Science:** Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems

**AI / Machine Learning:** Machine Learning, Deep Learning (Basics), Data Analysis

**Tools & Platforms:** Git, GitHub, Streamlit, Supabase, Google AI Studio, Google Calendar API, Microsoft Excel

## PROJECTS

- **LastMinuteAI** – AI-powered productivity assistant built using Streamlit, Gemini, Supabase, and Google Calendar API. Implemented task prioritization, automated scheduling, an AI coach feature, and productivity analytics.
- **Development of Surface AQI & Identification of HCHO Hotspots over India using Satellite Data** – Developed a deep-learning based workflow using satellite, CPCB, and meteorological datasets to predict ground-level pollutants and generate AQI mapping.
- **Automatic Face Recognition Attendance System** – Built a face-recognition based system to automate attendance tracking.
- **Library Management System** – Developed a Java-based CRUD application for managing library books and user records.
- **Student Management System** – Built an academic record management system for tracking student data.
- **Mini Social Media** – Developed a basic social networking application with core user interaction features.
- **Crop Prediction based on Soil Quality** – Built a predictive model to recommend suitable crops based on soil quality parameters measured by hardware devices.

## ACHIEVEMENTS & CERTIFICATIONS

- Participant, Bharatiya Antariksh Hackathon (ISRO)
- Participant, Asansol Hardware Hackathon
- Participant, IMI IgniteX 1.0
- NPTEL Certification: Programming in Java – Scored 85%
- NPTEL Certification: Design and Analysis of Algorithms – Scored 51%
- NPTEL Certification: Cloud Computing – Scored 82%

## AREAS OF INTEREST

Coding and Problem Solving, Web Development, Data Analysis
